794 subsequent delivery to the patient or resident and may assist in the administration of the cannabis oil to
795 the patient or resident as necessary.

796 I. The Board shall promulgate regulations to implement the registration process. Such regulations
797 shall include (i) a mechanism for sufficiently identifying the practitioner issuing the written certification,
798 the patient being treated by the practitioner, his registered agent, and, if such patient is a minor or an

799 incapacitated adult as defined in § 18.2-369, the patient's parent or legal guardian; (ii) a process for
800 ensuring that any changes in the information are reported in an appropriate timeframe; and (iii) a
801 prohibition for the patient to be issued a written certification by more than one practitioner during any
802 given time period.

815 **authorization to conduct research; application and fees.**

816 A. The Board shall register an applicant to manufacture or distribute controlled substances
817 included in Schedules I through V unless it determines that the issuance of that registration would be
818 inconsistent with the public interest. In determining the public interest, the Board shall consider the

- 820 1. Maintenance of effective controls against diversion of controlled substances into other than
821 legitimate medical, scientific, or industrial channels;

835 substances in Schedules II through VI, ~~tetrahydrocannabinol~~, or marijuana. Practitioners registered under
836 federal law to conduct research with Schedule I substances, other than ~~tetrahydrocannabinol~~ marijuana,
837 may conduct research with Schedule I substances within this Commonwealth upon furnishing the evidence
838 of that federal registration.

839 D. The Board may register other persons or entities to possess controlled substances listed on
840 Schedules II through VI upon a determination that (i) there is a documented need, (ii) the issuance of the
841 registration is consistent with the public interest, (iii) the possession and subsequent use of the controlled
842 substances complies with applicable state and federal laws and regulations, and (iv) the subsequent
843 storage, use, and recordkeeping of the controlled substances will be under the general supervision of a
844 licensed pharmacist, practitioner of medicine, osteopathy, podiatry, dentistry, or veterinary medicine as
845 specified in the Board's regulations. The Board shall consider, at a minimum, the factors listed in
846 subsection A ~~of this section~~ in determining whether the registration shall be issued. Notwithstanding the
847 exceptions listed in § 54.1-3422 A, the Board may mandate a controlled substances registration for sites
848 maintaining certain types and quantities of Schedules II through VI controlled substances as it may specify
849 in its regulations. The Board shall promulgate regulations related to requirements or criteria for the
850 issuance of such controlled substances registration, storage, security, supervision, and recordkeeping.

851 E. The Board may register a public or private animal shelter as defined in § 3.2-6500 to purchase,
852 possess, and administer certain Schedule II through VI controlled substances approved by the State
853 Veterinarian for the purpose of euthanizing injured, sick, homeless, and unwanted domestic pets and
854 animals and to purchase, possess, and administer certain Schedule VI drugs and biological products for
855 the purpose of preventing, controlling, and treating certain communicable diseases that failure to control
856 would result in transmission to the animal population in the shelter. Controlled substances used for
857 euthanasia shall be administered only in accordance with protocols established by the State Veterinarian
858 and only by persons trained in accordance with instructions by the State Veterinarian. The list of Schedule
859 VI drugs and biological products used for treatment and prevention of communicable diseases within the
860 shelter shall be determined by the supervising veterinarian of the shelter and the drugs and biological
861 products shall be administered only pursuant to written protocols established or approved by the
862 supervising veterinarian of the shelter and only by persons who have been trained in accordance with
863 instructions established or approved by the supervising veterinarian. The shelter shall maintain a copy of
864 the approved list of drugs and biological products, written protocols for administering, and training records
865 of those persons administering drugs and biological products on the premises of the shelter.

868 Schedule VI controlled substances necessary for immediate treatment of patients admitted to the crisis
869 stabilization unit, which may be accessed and administered by a nurse pursuant to a written or oral order

871 only be maintained if so authorized by federal law and Board regulations.

872 G. The Board may register an entity at which a patient is treated by the use of instrumentation and
873 diagnostic equipment through which images and medical records may be transmitted electronically for the
874 purpose of establishing a bona fide practitioner-patient relationship and is prescribed Schedule II through
875 VI controlled substances when such prescribing is in compliance with federal requirements for the practice
876 of telemedicine and the patient is not in the physical presence of a practitioner registered with the U.S.
877 Drug Enforcement Administration. In determining whether the registration shall be issued, the Board shall

878 consider (i) the factors listed in subsection A, (ii) whether there is a documented need for such registration,
879 and (iii) whether the issuance of the registration is consistent with the public interest.

880 H. Applications for controlled substances registration certificates and renewals thereof shall be
881 made on a form prescribed by the Board and such applications shall be accompanied by a fee in an amount
882 to be determined by the Board.

883 I. Upon (i) any change in ownership or control of a business, (ii) any change of location of the
884 controlled substances stock, (iii) the termination of authority by or of the person named as the responsible
885 party on a controlled substances registration, or (iv) a change in the supervising practitioner, if applicable,

901 pharmaceutical processors and cannabis dispensing facilities. Such regulations shall include requirements
902 for (i) physical standards; (ii) location restrictions; (iii) security systems and controls; (iv) minimum
903 equipment and resources; (v) recordkeeping; (vi) labeling, including the potency of each botanical
904 cannabis product and the amounts recommended by the practitioner or dispensing pharmacist, and

905 packaging; (vii) routine inspections no more frequently than once annually; (viii) processes for safely and
906 securely dispensing and delivering in person cannabis products to a registered patient, his registered agent,
907 or, if such patient is a minor or an incapacitated adult as defined in § 18.2-369, such patient's parent or
908 legal guardian; (ix) dosage limitations for cannabis oil that provide that each dispensed dose of cannabis
909 oil not exceed 10 milligrams of ~~delta-9-tetrahydrocannabinol~~ tetrahydrocannabinol; (x) a process for the
910 wholesale distribution of and the transfer of usable cannabis, botanical cannabis, cannabis oil, and
911 cannabis products between pharmaceutical processors, between a pharmaceutical processor and a
912 cannabis dispensing facility, and between cannabis dispensing facilities; (xi) an allowance for the sale of
913 devices for administration of dispensed cannabis products and hemp-based CBD products that meet the
914 applicable standards set forth in state and federal law, including the laboratory testing standards set forth
915 in subsection M; (xii) an allowance for the use and distribution of inert product samples containing no
916 cannabinoids for patient demonstration exclusively at the pharmaceutical processor or cannabis dispensing
917 facility, and not for further distribution or sale, without the need for a written certification; (xiii) a process
918 for acquiring oil from industrial hemp extract and formulating such oil extract with Cannabis plant extract
919 into allowable dosages of cannabis oil; and (xiv) an allowance for the advertising and promotion of the
920 pharmaceutical processor's products and operations, which shall not limit the pharmaceutical processor
921 from the provision of educational material to practitioners who issue written certifications and registered
922 patients. The Board shall also adopt regulations for pharmaceutical processors that include requirements
923 for (a) processes for safely and securely cultivating Cannabis plants intended for producing cannabis
924 products, (b) the secure disposal of agricultural waste, and (c) a process for registering cannabis oil
925 products.

926 D. The Board shall require that, after processing and before dispensing any cannabis products, a
927 pharmaceutical processor shall make a sample available from each batch of cannabis product for testing
928 by an independent laboratory located in Virginia meeting Board requirements. A valid sample size for
929 testing shall be determined by each laboratory and may vary due to sample matrix, analytical method, and
930 laboratory-specific procedures. A minimum sample size of 0.5 percent of individual units for dispensing
931 or distribution from each homogenized batch of cannabis oil is required to achieve a representative

932 cannabis oil sample for analysis. A minimum sample size, to be determined by the certified testing
933 laboratory, from each batch of botanical cannabis is required to achieve a representative botanical cannabis
934 sample for analysis. Botanical cannabis products shall only be tested for the following: total cannabidiol
935 (CBD); total tetrahydrocannabinol (THC); terpenes; pesticide chemical residue; heavy metals;
936 mycotoxins; moisture; and microbiological contaminants. Testing thresholds shall be consistent with

938 oil that fails any quality testing standard. Following remediation, all remediated cannabis oil shall be
939 subject to laboratory testing and approved upon satisfaction of testing standards applied to cannabis oil
940 generally. If the batch fails retesting, it shall be considered usable cannabis and may be processed into
941 cannabis oil, unless the failure is related to pesticide requirements, in which case the batch shall not be
942 considered usable cannabis and shall not be processed into cannabis oil. Stability testing shall not be
943 required for any cannabis oil product with an expiration date assigned by the pharmaceutical processor of
944 six months or less from the date of packaging.

945 E. A laboratory testing samples for a pharmaceutical processor shall obtain a controlled substances

990 M. A pharmaceutical processor may acquire industrial hemp extract processed in Virginia, and in
991 compliance with state or federal law, from a registered industrial hemp dealer or processor. A
992 pharmaceutical processor may process and formulate such extract with cannabis plant extract into an
993 allowable dosage of cannabis oil. Industrial hemp extract acquired by a pharmaceutical processor is
994 subject to the same third-party testing requirements that may apply to cannabis plant extract. Testing shall
995 be performed by a laboratory located in Virginia and in compliance with state law. The industrial hemp
996 dealer or processor shall provide such third-party testing results to the pharmaceutical processor before
997 industrial hemp extract may be acquired.

998 N. With the exception of § 2.2-4031, neither the provisions of the Administrative Process Act (§
999 2.2-4000 et seq.) nor public participation guidelines adopted pursuant thereto shall apply to the adoption
1000 of any regulation pursuant to this section. Prior to adopting any regulation pursuant to this section, the
1001 Board of Pharmacy shall publish a notice of opportunity to comment in the Virginia Register of
1002 Regulations and post the action on the Virginia Regulatory Town Hall. Such notice of opportunity to
1003 comment shall contain (i) a summary of the proposed regulation; (ii) the text of the proposed regulation;
1004 and (iii) the name, address, and telephone number of the agency contact person responsible for receiving
1005 public comments. Such notice shall be made at least 60 days in advance of the last date prescribed in such
1006 notice for submittals of public comment. The legislative review provisions of subsections A and B of §
1007 2.2-4014 shall apply to the promulgation or final adoption process for regulations pursuant to this section.
1008 The Board of Pharmacy shall consider and keep on file all public comments received for any regulation
1009 adopted pursuant to this section.

1011 standards.

1012 § 54.1-3442.7. Dispensing cannabis products; report.

1013 A. A pharmaceutical processor or cannabis dispensing facility shall dispense or deliver cannabis
1014 products only in person to (i) a patient who is a Virginia resident or temporarily resides in Virginia as
1015 made evident to the Board, has been issued a valid written certification, and is registered with the Board
1016 pursuant to § 54.1-3408.3; (ii) such patient's registered agent; or (iii) if such patient is a minor or an
1017 incapacitated adult as defined in § 18.2-369, such patient's parent or legal guardian who is a Virginia
1018 resident or temporarily resides in Virginia as made evident to the Board and is registered with the Board
1019 pursuant to § 54.1-3408.3. A companion may accompany a registered patient into a pharmaceutical
1020 processor's dispensing area or cannabis dispensing facility. Prior to the initial dispensing of cannabis oil
1021 pursuant to each written certification, a pharmacist or pharmacy technician employed by the
1022 pharmaceutical processor or cannabis dispensing facility shall make and maintain, on site or remotely by
1023 electronic means, for two years a paper or electronic copy of the written certification that provides an
1024 exact image of the document that is clearly legible; shall view, in person or by audiovisual means, a current
1025 photo identification of the patient, registered agent, parent, or legal guardian; and shall verify current board
1026 registration of the practitioner and the corresponding patient, registered agent, parent, or legal guardian.
1027 Thereafter, an initial dispensing may be delivered to the patient, registered agent, parent, legal guardian,
1028 or designated caregiver facility. Prior to any subsequent dispensing of cannabis oil pursuant to each written
1029 certification, an employee or delivery agent shall view a current photo identification of the patient,
1030 registered agent, or legal guardian and the current board registration issued to the patient, registered agent,
1031 parent, or legal guardian. No pharmaceutical processor or cannabis dispensing facility shall dispense more
1032 than a 90-day supply of a cannabis product, as determined by the dispensing pharmacist or certifying
1033 practitioner, for any patient during any 90-day period; however, a pharmaceutical processor or cannabis
1034 dispensing facility may dispense more than one cannabis product to a patient at one time. No more than
1035 four ounces of botanical cannabis shall be dispensed for each 30-day period for which botanical cannabis
1036 is dispensed. A pharmaceutical processor or cannabis dispensing facility may dispense less than a 90-day
1037 supply. In determining the appropriate amount of a cannabis product to be dispensed to a patient, a

1038 pharmaceutical processor or cannabis dispensing facility shall consider all cannabis products dispensed to
1039 the patient and adjust the amount dispensed accordingly.

1040 B. A pharmaceutical processor or cannabis dispensing facility shall dispense only cannabis
1041 products produced on the premises of a pharmaceutical processor permitted by the Board or cannabis oil
1042 that has been formulated with oil from industrial hemp acquired by a pharmaceutical processor from a
1043 registered industrial hemp dealer or processor pursuant to § 54.1-3442.6. A pharmaceutical processor may
1044 begin cultivation upon being issued a permit by the Board.

1045 C. The Board shall report annually by December 1 to the Chairmen of the House Committee for
1046 Health, Welfare and Institutions and the Senate Committee on Education and Health on the operation of
1047 pharmaceutical processors and cannabis dispensing facilities issued a permit by the Board, including the
1048 number of practitioners, patients, registered agents, and parents or legal guardians of patients who have
1049 registered with the Board and the number of written certifications issued pursuant to § 54.1-3408.3.

1050 D. The concentration of ~~delta-9-tetrahydrocannabinol~~ tetrahydrocannabinol in any cannabis
1051 product on site may be up to 10 percent greater than or less than the level of ~~delta-9-tetrahydrocannabinol~~
1052 tetrahydrocannabinol measured for labeling. A pharmaceutical processor and cannabis dispensing facility
1053 shall ensure that such concentration in any cannabis product on site is within such range. A pharmaceutical
1054 processor producing cannabis products shall establish a stability testing schedule of cannabis products.
